88. Moderní JavaScript - Roletka a práce s hodnotami (select, option, change)

HTML

```html
<select name="" id="my-select">
    <option value="1">Prvá možnosť</option>
    <option value="2">Druhá možnosť</option>
    <option value="3">Tretia možnosť</option>
</select>

<!-- 88. roletka s výberom koniec -->
```
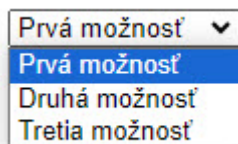

JAVASCRIPT

```javascript
let mySelect = document.querySelector("#my-select")

console.log(mySelect)

mySelect.addEventListener("change", function(event){
    console.log(event.target.value)
})
```

`<select name id="my-select">...</select>`	script.js:3136
2	script.js:3140
1	script.js:3140
3	script.js:3140
